

## • Therma-Tru Impact-Rated Products

Impact-rated  
products are tough  
when you need it!

Therma-Tru impact-rated doors and glass meet coastal region codes and regulations, offering excellent protection in extreme weather conditions while providing added security.

We blast a 9 lb. 2" x 4" stud into our Impact-rated doors at 34 mph to prove they're the better choice for strength and stability.

Fiberglass doors feature a built-in 24-gauge steel plate that helps protect the home from weather-related damage.

The glass is designed to withstand wind forces up to 195 mph (DP-65) when installed in an approved Therma-Tru Impact-rated door.\*

\*Impact and structural performance of a single Therma-Tru fiberglass door with multi-point locking system.

# Keystone™

Swirled gray baroque glass, clear curved  
bevels and caming.

# Privacy Glass

## Chord Glass (XC)

A vertical, flowing pattern reminiscent of waves on the water.

Glass Privacy Rating Scale

Clear Opaque

## Chinchilla Glass (XJ)

A free-flowing configuration, presenting quiet lines and curves.

Glass Privacy Rating Scale

Clear Opaque

## Rainglass (XR)

An elegantly fashioned glass, featuring ripples of cascading water.

Glass Privacy Rating Scale

Clear Opaque

## Granite Glass (XN)

A coarse grained arrangement with surface detail over the entirety of glass.

## Privacy Glass Options Key

**XC = Chord Glass**      **XJ = Chinchilla Glass**  
**XR = Rainglass**      **XN = Granite Glass**

Therma-Tru and sidelite style numbers now include the following abbreviations for the four privacy glass options. The style number listed under each image matches the privacy glass option shown. Each door and sidelite is also available in any of the other privacy glass options by using the appropriate code shown above.
